

**A smarter communicator  
for a smarter security system**

# The ultimate communicator

## Multi-network communicator

Features dual SIM functionality, managed by Olarm for enhanced performance.

## More control

2 Configurable I/O ports allow you to control peripherals such as: Doors, Gates, Barriers Lights, Panic Packs and more!

## Multiple 4G antenna options

Optimise signal strength with a choice of internal or external antenna options.

## Fast install

Utilise WPS Mode for swift and secure WiFi pairing, enhancing the ease of device setup and connectivity.

## Auto-restart

Conserve valuable resources by eliminating the need for on-site visits to reboot or manage an Olarm device.

# Olarm APP - Manage and control your security easily

## Convenient control at your fingertips

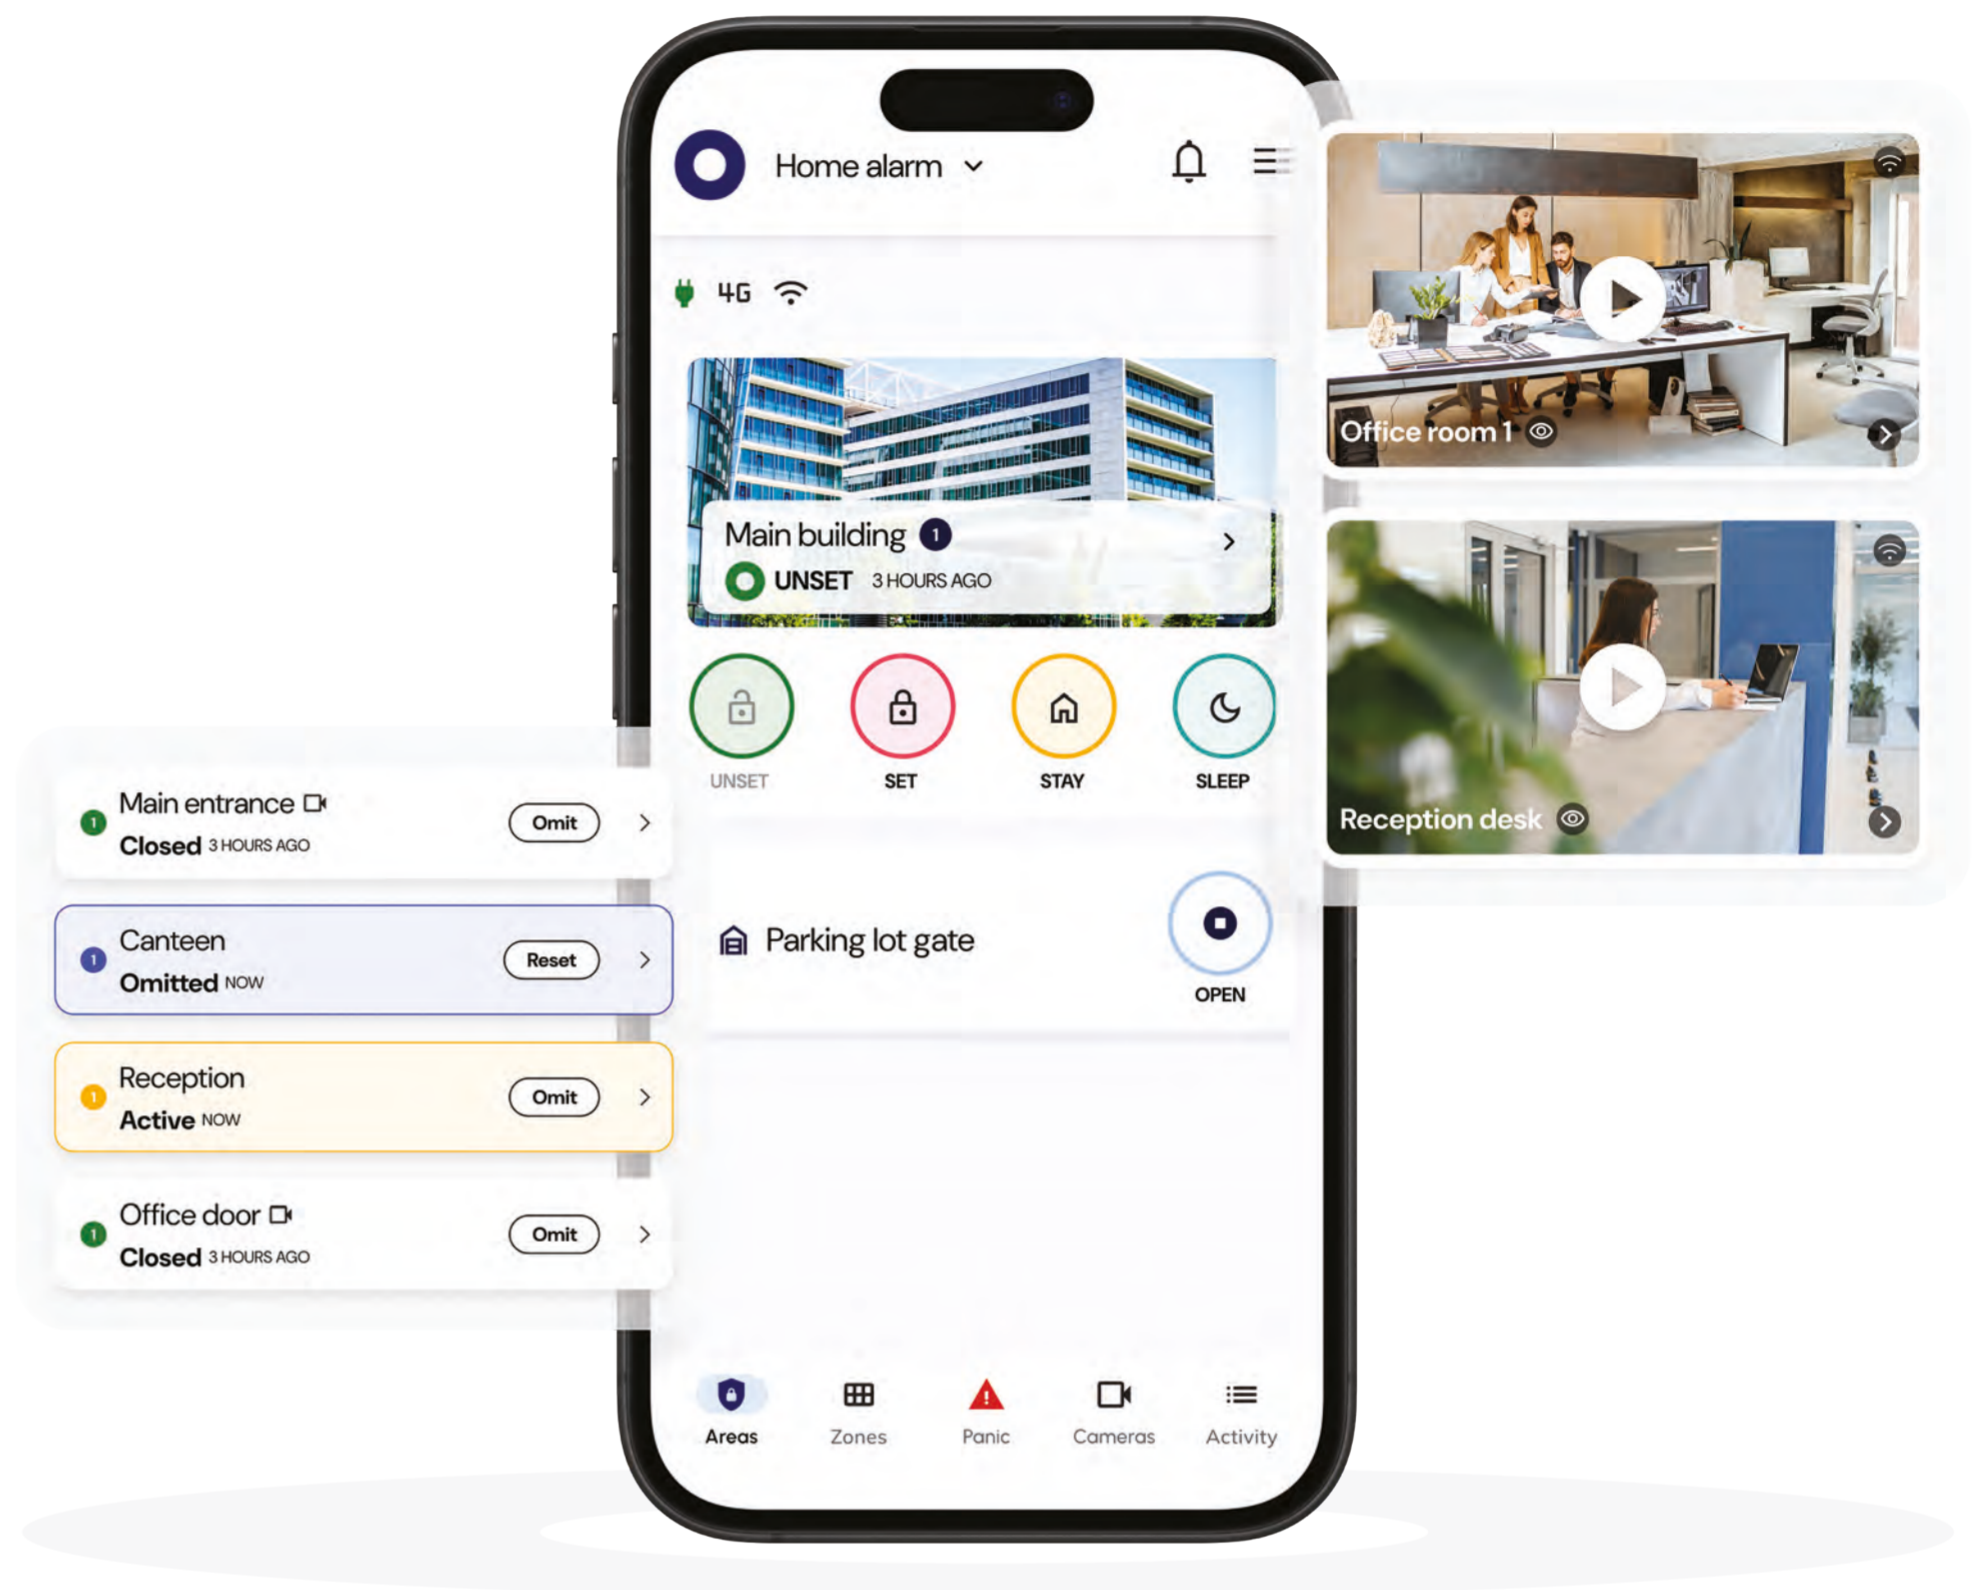

Easily manage and control your existing security system with our feature-rich and intuitive app.

## Customise your security experience

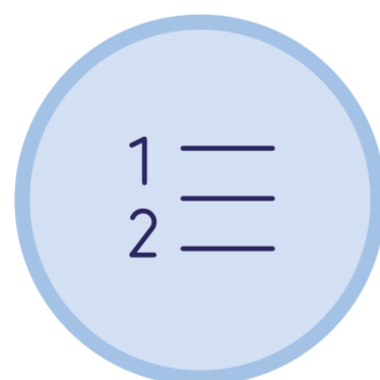

Configure to your preferences - label appliances, attributes, and areas, incorporate images, and establish alerts + extras.

## Stay connected, monitor remotely with our Olarm APP

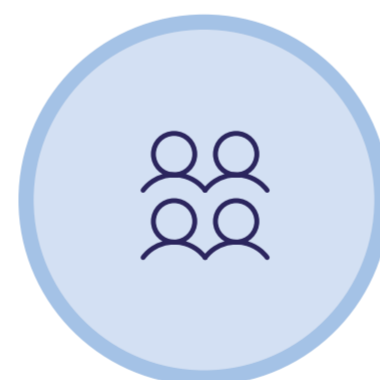

Monitor your home or business on the go with ease. Access devices, zones, activity, and user info on your smartphone, plus set alerts and more.

# Oalarm ecosystem - Built for safety, simplicity and functionality. Trusted by over 300 000 users

## Smart and Secure End-to-End Communication

Oalarm MAX connects users, monitoring centres, and security systems through a unified network for seamless, always-on communication. With WiFi and dual SIMs (4G & 2G), it ensures continuous connectivity between alarm systems, the Oalarm COMMAND CENTRE, and the Alarm Receiving Centre (ARC). Operators monitor signals via IP or physical base stations, while users stay in control through the Oalarm APP and Oalarm REMOTE CONNECT software for secure remote management. Together, these components deliver a smart, reliable, and easily managed security solution trusted by hundreds of thousands of users.

The ultimate communicator  
that turns an alarm panel into  
a smart alarm system

## Hear from our customers

This is definitely one of the best systems you can get to monitor and set your alarm system from you phone. Very simple and easy to install and activate.

**Meeran**

★★★★★

2 thumbs up. Out of the box and installed in a couple of minutes on my Paradox system. Subscription through their app and all working perfectly fine. Top product!

**Martin**

★★★★★

One of those amazing products you will wonder how you did with out it, allows you to convert your existing non smart older alarm system into a smart one!

**Amy**

★★★★★
